

Open position for: **Advance Therapies production facility**

TITLE: Production technician

REF: CRE24-02 **Call closes on:** May 10, 2024

ACCOUNTABLE TO: Production Technician

CONTRACT: Production Technician position at Creatio, University of Barcelona

START DATE: May 20, 2024

WORKING HOURS: 37.5 **WORK TIMETABLE:** 8:30/9:30h – 17:00/18h
(includes weekends when needing)

GROSS SALARY: 24720.00 €

Job Summary

The **Production Technician position** is available in the Area for Clinical Production of the Production and Validation Center of Advanced Therapies (Creatio). The position involves the tasks of the technician for the **Production of Advanced Therapy Medicinal Products (ATMPs)** for all medical disciplines.

The Area for Clinical Production is involved in the following processes:

- Cell-based therapeutic products.
- Gene therapy products and lentiviral production in our GMP facility.
- Tissue engineering products and production of artificial scaffolds.
- 3D bioprinting tissues.
- GMP and UNE-EN-ISO:9001 protocols.

This work will be performed at **Creatio's Clinical Area** in close contact with the laboratory of **Stem Cell and Regenerative Medicine** at the Department of Biomedical Sciences at the Faculty of Medicine and Health Sciences, University of Barcelona. Creatio is integrated in the Spanish network of Advance Therapies (RICORDS; TERA-V), which provides a collaborative environment to successfully achieve our objectives.

Main Duties

Production Technician:

- Carry out the technical tasks of drug production for the different therapies in progress as assigned by the Production Manager.
- Entry of materials and reagents following the quality system.
- Research processes and cell culture work.
- Maintenance of equipment and facilities.
- Participate in the Validation and Qualification activities of the medicines produced.
- Fine-tuning of the production of artificial tissues through 3D bioprinting.
- Preparation of the documentation assigned to him in relation to the production of advanced therapy drugs.
- Complete and register the documentation in the manner defined in the Quality System.
- Comply with Good Manufacturing Practices (GMP) and Quality Systems.

Requirements

Applicants are required to hold a superior laboratory technician grade (FPII), with background experience in Quality Systems.

- Experience in a biomedical laboratory.
- High level professional training (FP2), intermediate level training cycles, baccalaureate, or an equivalent qualification.
- Availability to work during weekends.

Other positive considerations:

- Experience in cell or gene therapy and tissue engineering.
- Knowledge of GMP.
- Knowledge of UNE-EN ISO 9000.
- Language knowledge: Catalan, English and Spanish.
- Organized, methodical, proactive, and motivated.
- Ability to work with other team members.

Expression of interest

Candidates interested in this position should apply following the published instructions:
