

Mind the Byte, a bioinformatics company specialized in computational Drug Discovery using Big Data and Machine Learning approaches, **is now looking for Candidates to apply to:**

Marie Curie Individual Fellow in the field of Systems Biology

We are looking for a highly motivated and proactive person with a strong interest in learning and participating in an innovative and growing environment. That person will apply to the [MSCA Individual Fellow topic](#) (deadline September 14th). Once that person is granted by the European Commission, he/she will work as a Researcher at the **Systems Pharmacology** department, based in Barcelona.

Tasks / responsibilities

- Develop a Scientific Software project related to Systems Polypharmacology.

Requirements

- Comply with the rules of mobility in the country as described in the Call for Proposals.
- PhD in Computational Biology/Bioinformatics or similar.
- Prior experience of at least 2 years in Systems Biology.
- Strong background in algorithms, statistics and data management and mining.
- Excellent programming skills. Experience in python is a plus.
- Familiar with Machine Learning techniques.
- Knowledge on SQL and noSQL databases.
- Experience in the field of Drug Discovery is a plus.
- Fluent English (Catalan/Spanish is a plus).

We offer

- Full time contract, starting at mid-January.
- Flexible working time.
- Salary according to both candidate's experience and Mind the Byte's pay scales.
- An exciting and growing environment.

If you are interested, please send your CV and Cover Letter to hr@mindthebyte.com (Subject: MSCA Candidate) before July 28th.
