

MiWEndo Solutions is developing a novel accessory medical device to integrate microwave imaging with conventional colonoscopy. MiWEndo Solutions is a clinical-stage spinoff of leading research institutions in the field of medicine and technology: [Universitat Pompeu Fabra](#), [Universitat Politècnica de Catalunya](#) and [Hospital Clínic de Barcelona](#). The Company is located in Barcelona.

MiWEndo Solutions is seeking to recruit colleagues for an open position:

### **RADIOFREQUENCY AND ELECTRONICS ENGINEER**

MiWEndo Solutions is seeking to recruit an engineer with knowledge in radiofrequency and electronics. The candidate must work in a team and have good communication skills and the ability to properly document their developments. The candidate needs to be proactive, flexible and autonomous.

#### **REQUIREMENTS:**

- Degree in telecommunications engineering, electronics engineering, or related degrees.
- EM wave interaction with human body understanding.
- Manual skills for laboratory work (measurements, manufacture and soldering of printed circuits, manufacture of phantoms, 3D printing).
- Availability to work in Barcelona in person when the project requires it.
- Software knowledge: Matlab, CST Studio Suite, Altium, Solidworks.

If interested, please submit your CV together with your motivation letter to [ibelda@miwendo.com](mailto:ibelda@miwendo.com).
