

The I3PT is taking on the challenge of managing and leading a great innovation platform in Spain. During the years 2021-2023, the I3PT's main objective will be to streamline and consolidate its innovation model, based on the support to top projects and the transference of knowledge to the industry.

In this context, we need to build a multidisciplinary team, with different levels of experience, entrepreneurial spirit and able to work collaboratively and resolutely. Therefore, we offer

POSITION

1 Advanced Technician (Innovation Manager)

Professional category: No researcher personnel, Level I

Requirements:

- University Degree in Life Science: Biology, Biomedical Engineering, Pharmacy, Biochemistry, Medicine or similar.

We will evaluate:

- Curriculum vitae.
- Master's Certificate in Business Administration (MBA) or in Innovation Management.
- Skills in synthesis, writing and oral communication.
- Fluency in English, both spoken and written.
- Abilities regarding organization, teamwork, empathy, communication, rigour and proactivity.
- Training in innovation and transfer to market.
- Minimal experience of 3 years in similar positions related to technology transfer or entrepreneurship.

Tasks to perform:

Give support to the ITEM A Coordination regarding the projects submitted to the platform, such as:

- Apply technical evaluation criteria.
- Write preliminary evaluation reports.
- Manage the portfolio of services and the portfolio of projects of the ITEMAS platform.
- Give support in the search of financing and investment for the portfolio of ITEMAS projects.
- Develop basic documentation for the new model for submitting and recruiting projects.

It is offered:

The candidate person will be employed through a temporary contract for a specific project or service, full-time dedication and following the working conditions established in the collective labour agreement applicable to the institute.

The contract is financed by the "*Plataforma de dinamización e innovación de las capacidades industriales del Sistema Nacional de Salud y su transferencia efectiva al sector productivo, PTC20/00015*", from the Instituto de Salud Carlos III and likely financed by the European Regional Development Fund (ERDF), thus its duration will be linked to the project.

Selection process:

The general conditions of this open call will be governed by the clauses present in this current offer and by the procedures outlined in the basis for open calls for occupation of current positions which is available on the website www.tauli.cat.

In compliance of the LISMI, the Consorci will consider the preferred selection of those candidates whose recognised disability is equal or superior to 33%, provided that they are ideal for the performance of the tasks required.

More info, submission and documentation:

Interested candidates may submit their application to the following link: <https://bit.ly/3wUwQFS> where they will be required to attach their curriculum vitae in PDF format, additional documents as required in the job description, as well as, other documentation that they consider valuable for their merit accreditation. For questions related to this open call, please contact seleccio@tauli.cat, stating the reference number of this call.

Deadline: September 10th, 2021

Identification Code: 7549
