

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.

HR EXCELLENCE IN RESEARCH

In April 2015, the **Vall d'Hebron Research Institute (VHIR)** obtained the recognition of the European Commission **HR Excellence**.

This recognition proves that VHIR endorses the general principles of the European Charter for Researchers and a Code of Conduct for the Recruitment of Researchers (**Charter & Code**).

VHIR embraces Equality and Diversity. As reflected in our values we work toward ensuring inclusion and equal opportunity in recruitment, hiring, training, and management for all staff within the organization, regardless of gender, civil status, family status, sexual orientation, religion, age, disability or race.

Delegate Director of Advanced Therapies Hub

Advanced Therapies Hub Delegate Directorate

Vall d'Hebron Research Institute (VHIR) is a public sector institution, located in Barcelona (Spain) that promotes and develops innovative biomedical research at the University Hospital Vall d'Hebron. VHIR is oriented towards finding solutions to the health problems of the citizens and has the will to contribute to the scientific, educational, social and economic development within its area of competence.

For a better organization of its resources, VHIR has created a new Advanced Therapies Hub Delegate Directorate. Its mission as a Delegate Directorate from the General Directorate is the implementation of an Advanced Technology Hub. Its objective focuses on the development of research and innovation, including VHIR initiatives linked to Next Generation funds, through which new opportunities arise to increase the potential for research and innovation of VHIR.

The candidate will manage the Directorate, actively contributing to positioning the Institute as a world referent in Biomedical Research.

JOB DESCRIPTION

Education and qualifications:

- Bachelor's Degree and Doctorate's Degree in Life Sciences or related
- Master in business management or equivalent

Experience, knowledge and skills:

- At least 10 years of work experience in the management of institutions or programs related to biomedical research.
- Excellent and proven understanding of the national and international research environment.

The Vall d'Hebron Research Institute (VHIR) is a public sector institution that promotes and develops the research, innovation and biosanitary teaching of the Vall d'Hebron University Hospital. Through the excellence of our research, we identify and apply new solutions to the health problems of society and we contribute to spread them around the world.
