

## Healthcare Investment Associate (maternity leave replacement)

**Are you looking for a mission-driven investment role that aims to create a better world? If so, keep reading!**

Ship2B Ventures is a venture capital firm focused on delivering profitability with impact. We are looking for an experienced investment professional to join the healthcare vertical for a parental leave replacement (6-7 months) and execute investments in startups looking to improve the quality of life of three vulnerable collectives: people with disabilities, people with chronic illnesses and the elderly.

### Who we are

We focus on improving the quality of life of vulnerable collectives, tackling climate change, and providing quality education to reduce school failure. We have under management more than €55 million and we invest and support mission-driven entrepreneurs with projects that can yield outsized returns for our LPs, society and our planet. We currently manage a [portfolio of over ten companies](#) including [Qida](#), [Mika](#), and [Sycal](#), amongst others.

Ship2B Ventures kicked-off its investment period in December 2021 and is currently in the third year of investment. The team is organized in two deal teams, one focused on healthcare, specifically in medtech, digital health and assistive technologies, and the other focused on climate tech and education. You'll be a key member of the healthcare deal team.

### What you'll be doing

#### Deal Sourcing:

- Proactively source new investment opportunities (medtech, digital health and assistive technologies)
- Actively participate in weekly dealflow meetings and take charge of healthcare pipeline
- Perform analytical market studies and company profiles
- Network with founders and other investors
- In-depth analysis of investment targets

#### Support pre-and post-deal closing process:

- Prepare investment proposal and presentations for Investment Committee
- Support senior team members in due diligence process and deal closing

#### Ongoing valuation of portfolio companies:

- Collaborate in generating regular monitoring reports
- Support partners in helping healthcare portfolio companies in their journeys
- Evaluate potential investment follow-ons and support exits

### What we expect from you

- 1-3 years of analyst/associate experience executing venture capital deals or in the venture capital / entrepreneurial space (experience in life sciences deals will be positively considered)
- Acquired a Master's Degree in a relevant field (life sciences is desirable)
- Intellectually curious, analytical thinker and strong interpersonal skills
- Comfortable working autonomously

- A thoughtful, collaborative approach and style that works well in a small, entrepreneurial team
- Genuine interest in social impact
- Fluent in Spanish and English

### What we offer

- A fun, fast paced, and purpose-driven environment
- A challenging, hands-on role that will have a real impact on people and planet
- Competitive compensation
- The opportunity to fast-track your investment career

### Start Date, conditions & location

This position is being offered as a temporary contract for maternity leave replacement (6-7 months). We are keen to close this position as soon as practicable and no later than June 2023. This is a full-time role based in Barcelona. We currently work under a 3 days-office and 2 days working from home structure.

Ship2B Ventures fosters a commitment to diversity, equity and inclusion so we encourage people with diverse backgrounds to apply.

### Sounds like you?

If interested, please send your CV and any supporting documents to [lpascual@ship2bventures.com](mailto:lpascual@ship2bventures.com) before the end of April 2023.
