

The Experimental Psychology and Brain Disorders Laboratory is seeking a candidate for a FPU scholarship (Ministerio de Economía y Competitividad). The doctoral dissertation will be part of one of our ongoing projects investigating the mechanisms underlying perception, attention and multisensory integration in healthy and clinical populations (brain lesions, psychosis in children and adults...). Find us here: <http://jordinavarra.com>

Ref. 203-15

Requirements:

- A degree in social/life sciences (Psychology, Biology, Biomedicine...).
- Minimum grade: 8.75 (1-10 scale).
- Master in Neuroscience, Cognitive Science, Psychology or similar.
- A minimum English level equivalent to B2 (First certificate).

We will take into account:

- Previous experience in a research environment.
- Experience in the field of experimental psychology or cognitive neuroscience.
- Knowledge of software: Matlab, E-Prime, and SPSS.

We offer:

- An opportunity to apply to the MINECO FPU grant public call (2015).
- PhD supervision by Dr. Jordi Navarra.
- Experience working in a translational research laboratory.

If you are interested, please send your ***curriculum vitae*** in English, **before December 11th (2015)**, to this email address: jnavarrao@fsjd.org
