

Junior Business Developer

Excellent opportunity to enter the world of #DataScience

The Company

 Butler Scientifics is a bioinformatics startup providing **automated exploratory data analysis** software for healthcare, pharma and life science researchers.

The Position

We're looking for a smart, energetic and friendly person to boost the business of our flagship analytics technology  AutoDiscovery.

The ideal candidate should have:

- ✓ Fundamental knowledge on statistics or life science research.
- ✓ Strong business orientation and negotiation skills.
- ✓ Creative storytelling ability.
- ✓ Ambition and proactivity.

Business Developer duties typically include:

- ✓ Working closely with the CEO to improve the Business Plan.
- ✓ Identifying new business opportunities.
- ✓ Improving engagement and providing outstanding service to customers.
- ✓ Performing technical presentations of the software.
- ✓ Negotiating and closing deals.

Why You Should Apply?

- ✓ Excellent platform for your professional growth in the Data Science world.
- ✓ Fixed salary + substantial sales commissions.
- ✓ Great work flexibility including remote working.
