

Job Description

ADmit Therapeutics, S.L. is a company spin-off from Bellvitge Biomedical Research Institute (IDIBELL), and focused on the development and commercialization of a novel Alzheimer's disease (AD) early detection technology.

We are seeking for a lab technician for our R&D department (FPII or similar education profile). The candidate will be under the supervision of the Senior R&D manager. The applicant will be responsible for the handle of blood and CSF samples, NGS library preparation, data registration, and lab equipment maintenance.

Desired Skills and Expertise

- A minimum experience about 2-3 years.
- Experience in Biotechs/Start ups or Genomic Cores Facilities.
- Experience in NGS protocols.
- Experience in biological samples handle (blood, CSF and so on).
- Good English level.
- The successful candidate is expected to have high planning and scheduling skills, ability to work under tight deadlines, to be collaborative and motivated.

Contract Duration and Other Benefits

- Full-time position (40 hours/week)
- The Gross annual salary will be commensurate to the candidate's expertise and qualifications.

Required Information and Contact

Candidates must submit a cover letter, contact details of 2-3 references and a complete CV to: info@admit-therapeutics.com

Please include "Lab technician position" in the subject of your email.

Application deadline: 30th September 2020.
