

Job offer

Xenopat a company offering services based on the use of orthoxenografts®, patient derived orthotopic xenografts, has opened a new position:

Pre-clinical Project manager

Experience with in vivo oncology/pharmacology or CRO experience is required.

The candidate will be responsible for:

- Executing pre-clinical drug testing projects.
- Interacting with clients to assess them in the use of orthoxenograft® (PDOX) as models for pre-clinical drug assays.

POSITION RESPONSIBILITIES

- Perform *in vivo* drug studies: mice welfare, mice surgery, drug administration, tumor measurement, sample preparation, data analysis.
- Cell culture.
- Assist with the tracking of samples and sending samples to sponsor companies.
- Provide weekly updates.
- Identify and solve problems involving ongoing studies.
- Represent Xenopat at scientific conferences.
- Work independently and perform other related duties as assigned.

KNOWLEDGE, SKILLS AND ABILITIES

- BS/MS degree in biology, pharmacology or related field.
- Accreditation to work with mice (FELASA preferred)
- Proved experience with in vivo oncology models.
- Understanding of preclinical drug development. Experience is a plus.
- Stick to agreed protocols while being flexible to adapt to possible unexpected events.
- Analyze data and create reports on time.
- Work effectively and productively.
- Strong sense of integrity and confidentiality.
- Manage multiple studies at one time.
- Written and verbal communication skills in Catalan, Spanish and English.
- Responsibility for own work.
- Observe ethics, safety and security procedures.
- Assist with other tasks/duties as required in a start-up company.
- Enthusiasm, ambition for professional growth.
- Willing to learn.
- Willing to lead a team.

WHAT WE OFFER

- Family-work balance.
- Full time contract (40h) and permanent position.
- Salary depending on experience.

Before June 12, applicants should submit their curriculum vitae including two contacts for further references and a motivation letter to: info@xenopat.com Please, mail heading should include "Job offer application".
