

Job Vacancy : Research Nurse for COVID-19 Clinical Trials

Description:

The Barcelona Institute for Global Health, ISGlobal, is the fruit of an innovative alliance between academic, government, and philanthropic institutions to contribute to the efforts undertaken by the international community to address the challenges in global health.

What We Are Looking for:

ISGlobal is looking for a registered nurse, preferably with clinical trials experience, for a position at the Barcelona Institute for Global Health in Barcelona. The research nurse will be engaged in the daily performance of COVID-19 clinical trials, ensuring that protocol procedures, applicable SOPs and Good Clinical Practices are followed. Research nurse tasks will include the collection of trial samples and study data as per specific study protocols, administration of the investigational medicinal products, monitoring of safety issues on trial participants and maintenance of accurate patient trial data in coordination with the rest of the study team members.

Main duties and tasks:

- assist research clinicians in taking consent from participants
- follow the protocol schedule
- perform sampling collection as per protocol requirements
- assist research clinicians on the monitoring of safety issues on the trial participants, escalating findings accordingly
- perform data collection according to the study protocols
- maintain updated source documents
- complete the study case report forms
- coordinate, administer and follow up on dispense of study treatment to participants
