Job offer 2018/02	rrhh@glycardial.com	93 556 58 85

About us

GlyCardial Diagnostics is a recently incorporated spin-off company of the Catalan Institute of Cardiovascular Sciences (ICCC) and the Spanish National Research Council (CSIC) focused on the development of a novel in vitro diagnostic test for the early diagnosis of cardiac ischemia and the prediction of patient's evolution after an ischemic event.

We are a small company willing to incorporate enthusiastic professionals that aim to be part of a disruptive project from the very beginning and to develop together with the company.

Job offer description

Laboratory technician

Academic training and job requirements

- Laboratory technician degree (*ciclo formativo superior*)
- Demonstrable experience in cellular, experimental, molecular and biochemical techniques:
