

LABORATORY TECHNICIAN - (REF.: LT_PM_85)

The Josep Carreras Leukaemia Research Institute (IJC) is a nonprofit research institute based in Barcelona and dedicated to advancing our understanding about leukaemia and related disorders, in partnership with the University of Barcelona and University Autònoma of Barcelona. The IJC has laboratories in three clinical campuses: i) Clinic Hospital, ii) Sant Pau Hospital and iii) Germans Trias i Pujol Hospital. IJC serves as a collaborative hub for basic investigators and physicians to work together on fundamental biological and clinical aspects of leukaemia. The IJC offers an excellent work environment built around a multi-disciplinary fusion of ideas and state-of-the-art facilities.

IJC Campus Clinic is looking for a **Laboratory Technician** to join the Stem cell biology, developmental leukemia and immunotherapy group. The project will be carried out in close collaboration with GENyO (Granada).

What we need

- MSc in Biotechnology, Biomedicine Sciences or similar.
- Hands on experience in molecular biology and biochemistry techniques.
- Previous experience in cell culture, specifically previous work with primary patient samples, and cytotoxicity assays.
- Excellent level of oral and written English.
- A high level of motivation and interest in hematology translational research.
- Travel availability. The project will be conducted at IJC (Barcelona) and GENyO (Granada).

Main responsibilities

The candidate will be involved in the study of the role of a transmembrane proteoglycan in the leukemogenesis and chemoresistance of B-cell acute lymphoblastic leukemia with MLL rearrangement. Biochemistry experiments and standard cell approaches will be carried out to evaluate the role of this antigen in leukemia.

What we offer

- A full-time contract for 6 months.
- Start date: the 15th of October of 2021.
- A salary commensurate with qualifications.
- The stimulating environment of the IJC and its scientific network.

How to apply

To apply for this opportunity, please send your resume and a cover letter (incl. the contact details of two referees) to jobs@carrerasresearch.org indicating in the subject of the message: **REF.: LT_PM_85**.

Deadline for Applications: 9th October 2021.

Who we are?

Our mission is to carry out research into the basic, epidemiological, preventive, clinical and translational aspects of leukemia and other hematologic malignancies.

The vision of the Josep Carreras Leukaemia Research Institute is that research will identify new therapeutic targets and enable us to develop more precise and less aggressive treatments. We aspire to understand the origin and development of leukemias and other malignant hematological pathologies in order to be able to prevent them. We will work for a future in which all leukemias will be curable.

The European Commission awarded the IJC the HR Excellence seal in July 2019. The IJC continues to work to maintain its policies in line with the Charter and Code principles. The HRS4R has the main objective of ensuring that research centers of excellence implement and respect the requirements of the European Charter for Researchers and the Code of Conduct for hiring researchers (from here on referred to as the Charter and Code) within their human resources policies.

This EC initiative aims to promote training, professional development, and mobility for all European scientists. The IJC supports these values and principles, which will not only serve to strengthen its internal policies but will actively stimulate excellent research and firmly situate the organization as an institution with a stimulating working environment that favors the development of its scientists.

IJC is an equal opportunity employer. We evaluate qualified applicants without regard to race, color, religion, sex, national origin, disability, and other legally protected characteristics.
