
MARIE S. CURIE 2019 - EXPRESSION OF INTEREST

PRINCIPAL INVESTIGATOR: Dr Carlos López

DEPARTMENT: Oncological Pathology & Bioinformatics Department, Hospital de Tortosa Verge de la Cinta

INSTITUTION: Pere Virgili Health Research Institute – Tortosa Campus

Dr. Carlos López, group leader of the Oncological Pathology & Bioinformatics Department at the Pere Virgili Health Research Institute (Tortosa, Spain), is interested in receiving Expressions of Interest of potential candidates for the Marie Skłodowska – Curie Individual Fellowship (MSCA – IF) 2019 call.

The team has more than 10 years of experience developing digital image analysis procedures applied for the quantification of tumour or immune markers stained with immunohistochemistry or fluorescent in situ hybridisation. Our research focuses in two areas:

- Biomarker discovery to better understand immune response in breast cancer patients;
- Application of mathematical models to predict response to treatment, survival and relapse.

We are looking for an experienced researcher, strongly committed to high quality frontier research that will be able to add new insights to the existing Group's core expertise in pathology and biomarker discovery. **The project will utilise a broad range of molecular techniques** (e.x. immunohistochemistry, Western Blot, PCR, cell culture, transmigration and proliferation analyses) combined with a new emerging technology considered the future of pathology diagnosis (i.e. Whole Slide Imaging, known as Virtual Slides) **to unravel the role of the sAC-cAMP axis in breast cancer progression.**

The selected candidate will be based at the Tortosa campus, which is equipped with the technical and scientific facilities for carry out this project. In addition, the candidate will be supported by the IISPV and have access to our postgraduate training schemes.

Eligibility criteria:

At the deadline for the submission of the proposals (11/09/2019), the candidate should have:

- Shall be in possession of a doctoral degree or 4 years of full-time equivalent experience;
- Must not have resided or carried out their main activities in Spain for more than 12 months in the 3 years immediately prior to the above mentioned deadline;
- Proven experience in the relevant molecular biology laboratory techniques;
- Strong publication record with at least 5 publications as first author.

How to apply:

Interested candidates should send a CV, motivation letter explaining your research interests, and contact details of two referees at upi@iispv.cat (E-mail Subject: "*IISPV - MSCA Dr López*") by **22 April 2019**.
