

Universitat Autònoma de Barcelona

PRE-DOCTORAL POSITION AT THE GROUP OF EPIGENETIC REGULATION OF THE CHROMATIN STRUCTURE OF THE DEPARTMENT OF BIOCHEMISTRY AND MOLECULAR BIOLOGY (UAB).

Requisites:

- Graduated in Biochemistry, Biology, Biotechnology, Biomedical Sciences, or similar.
- Be willing to enroll in a doctoral program in the 2019-2020 academic year.
- Deadline for applications: May 10th, 2019

The following items will be positively evaluated:

- Average grade: 2 or higher
- Master Degree in the field of Biosciences
- Prior research experience in groups in the field of Molecular Biology or Epigenetics
- Prior experience in Bioinformatics
- Advanced English level

It offers:

- Possibility to apply to a pre-doctoral UAB (PIF), FI and FPU scholarships
- Integration to a coordinated group UAB- IBMB- CSIC
- Subject of the thesis: Regulation of the expression of the somatic variants of Histone H1 and its suitability as cancer biomarker.

Interested candidates must send the CV and an academic record to: Dra. Alicia Roque / Dra. Inma Ponte

Email: alicia.roque@uab.cat, Inma.ponte@uab.cat

Group of Epigenetic Regulation of Chromatin Structure
Department of Biochemistry and Molecular Biology, Faculty of Biosciences, Autonomous University of Barcelona.
