

PREDOCTORAL POSITION IN BIOMEDICINE

We are currently offering a predoctoral position in the Cardiovascular Research Program (ICCC Program) to join the research group lead by Dr. Maria Borrell in the IIB-Sant Pau in Barcelona. The ICCG-group, made up of scientists with a multidisciplinary background, focuses on the understanding of vascular and heart disease with a basic and applied research approach.

The student will work in a project aimed to investigate the pathological mechanisms that lead to disease at cellular, molecular and in *in vivo* animal models in the cardiovascular and cardiac field. The candidate will use state-of-art molecular, cell and systems biology techniques, and *in vivo* animal models.

Candidates must have a University Degree in related biomedical sciences, an academic record above 2.5 (scale 1-4), and solid communication skills in English.

Qualified applicants should respond by emailing a letter of interest, CV, and two reference names to Dr. Maria Borrell (mborrellpa@santpau.cat)

Evaluation of applications will begin immediately and continue until the position is filled.
