

Solutia Global Health Solutions

Job Offer

Solutia Global Health Solutions is a Human Resources Consultancy specialized on life science and health profiles. Our experience of more than 20 years managing human resources turn us into a strategic partner for managing your professional career.

We are currently selecting a Product Safety for the regulatory affairs and product safety area of Laboratorios ISDIN, an important company specialized in dermatology, whose offices are located in Barcelona.

Responsibilities:

- Conduct case management activities and review of scientific literature.
- Signal management activities to determine whether there are new risks or whether risks have changed and whether those risks have an impact on the benefit-risk balance of the product.
- Prepare safety update reports, safety profiles, risk management plans, regulatory responses.
- Prepare vigilance procedures, training and other documents or activities to support compliance in vigilance related activities.
- Overview of safety profiles, safety concerns and commitments related to safety for products under clinical development or authorized.
- Support the implementation and maintenance of the global and local vigilance system by conducting the applicable vigilance activities in accordance with legal requirements such as case management, contracts, aggregate reports, training, responses to health authorities/ partners, literature review and preparation of SOPs and other vigilance related documents, others.
- Support ISDIN subsidiaries.

Requirements

- University degree in Scientific, Biology, Chemistry and Physics or related.
- English: C1
- At least 3 years experience performing similar functions

Benefits

- Salary according to the experience + Social Benefits
- Permanent employment
