

Position: Scientific Writer – BCNatal Fetal Medicine Research Center Hospital Clínic Barcelona.

We are looking for a scientific writer for a large research multidisciplinary research center in fetal medicine. The main tasks of the position is to give support to:

1. **General assistance to the director including among others:**
 - a) **Any kind of scientific writing (papers for publications/congresses, CV update, grants, periodic reports...),**
 - b) **Representing the center in meetings with funding agencies or any other stakeholder.**

2. **National and International fundraising: detection and coordination of the writing of proposals for new funding opportunities.**

We expect the position to be fully integrated in the everyday's work and future strategy of the center, achieving a full understanding of the mission and main strategic goals, in order to be able to accomplish the tasks above described.

We are looking for a MD, MsC or any degree in sciences, with a PhD degree, with experience in teamwork, high level of transferrable competences, experience in research and scientific writing, who is looking for a more managerial/transversal position in a research center. The position does not involve performing research on his/her own, but a sound background in biosciences is mandatory to be able to grasp the activity and goals of the center.

REQUIREMENTS:

- English: native or excellent command spoken and written. Spanish and Catalan will be an asset.
- University and PhD Degree.
- Experience in scientific writing, including mainly scientific manuscripts and grants.
- Good knowledge of EU funding programmes will be an asset.
- Professional experience in an academic environment/research institute, especially in fields related to biomedicine
- Experience in team working.
- High level communication skills both at personal relationship level as at scientific presentation level.

CONDITIONS:

- Part-time position
- **Maternity leave replacement** (start date in mid January)

DEADLINE: within 1 month from publication date

APPLICATION PROCEDURE: Candidates should send CV and motivation letter to Maite Aguilera maguile@clinic.ub.es
