

# Senior Laboratory Technician

## About AtG

[AtG](#) is a spin-off company from the Bellvitge Biomedical Research Institute (IDIBELL) and the Catalan Institute of Oncology (ICO) in Barcelona established with 2 clear goals: Change the traditional clinical trial and error model in oncology offering better selection of treatments and hence patient outcomes, and better treatment options.

Importantly, we have an incredible team that is keen enough to find new breakthroughs via understanding of tumor biology. To this end, our company provides a new therapeutic technology for cancer resistance to improve the lives of cancer patients.

## Role description

The laboratory technician will be responsible for performing routine technical tasks and experiments in laboratories to support scientific investigations. Their duties include setting up laboratories for scientific research, conducting lab-based experiments and recording and analyzing results. In this role the main responsibilities will be:

- Proactively contribute to AtG therapeutics research activities with hands on experience.
- Conduct experimental work both *in vitro* and *in vivo* for the profiling of AtG candidates, mainly using cancer mice models, cell culture and *in vitro* assays.
- Participate in the company meetings.
- Keep data organized and report results to supervisor.

## Profile:

- Lab technician degree or MSc in life Science (or equal experience).
- FELASA accreditation (mouse manipulation)
- Background in mice cancer models.
- Cell culture, histology and *in vitro* assay experience
- Knowledge of Spanish and/ or Catalan, and good skills in English.

## Preferences:

- Minimum of 2 years with technician experience in the life sciences, preferably biotech or pharma.
- General understanding of the drug development process, experience in the therapeutic areas of oncology would be considered a plus.

## Skills and Abilities:

- Independence.
- Meticulous attention to detail.
- Excellent written and oral communication skills.
- Good teamwork and interpersonal skills.
- Analytical skills.

## What can we offer you?

- Full-time contract in an exciting international biotech start-up environment.
- Salary package commensurate with the qualifications and experience of the candidate.
- Opportunities to advance your career in a growing organization.
- Starting date: During December 2021.

If you are already thrilled to know more and meet the position's criteria, we want to know you! **Send us an e-mail to [jointhefuture@atgtx.com](mailto:jointhefuture@atgtx.com)** attaching your CV and motivation letter with the subject "**Senior Laboratory Technician**", and we will get in touch with you soon.

Deadline: Please submit your application by 26/11/2021.
