of Catalonia

CATALONIA: BIO TO BUSINESS

30 COMPANIES • 16 INSTITUTIONS • 400 M² • MORE THAN 90 REPRESENTATIVES

MEET US AT **BOOTH 1725** (HALL B1)

DON'T MISS THE COMPANIES PRESENTATIONS AT THE SPEAKER'S CORNER

 **Bio**
International The Global Event
Convention for Biotechnology

Biotechnology, a leading sector in Catalonia

- 9 science and technology parks
- 9 universities offering studies in life sciences and some of the most important international business schools
- 900 recognised research groups
- 150 research centres
- 6.1 researchers per 1,000 inhabitants
- 215 hospitals

Infrastructure and talent, stimulating the biotechnology sector

- **Genomic Sciences and Structural Biology:** Unique capabilities and large modern facilities (ALBA Synchrotron, Barcelona Supercomputing Center, future Genomic Sequencing Laboratory...)
- **Translational and personalized medicine:** Oncology is a major strength in Catalonia, with translational capabilities covering all the value chain
- **Clinical trials:** Quality, safety, fast patient recruitment and competitive costs make the BioRegion the place of choice for trials
- **A place for business:** Entrepreneurial spirit and local VC investment in a favourable environment
