

BIO-EUROPE SPRING CONGRESS 2013 - Region of Wallonia Exhibitors

Company	Profile	Web	Contact	E-mail	Adress	Tel(+32)	Fax(+32)	GSM(+32)
1  BeMICON	BeMicon® reinvents the coverall. Development of BeMicon® : a New Model of Coverall Gown for Cleanrooms offering a Reduction in Contamination Risks and in Gowning Procedure Time. The BeMicon® coverall for cleanroom improves the gowning process, reduces time and risk of operator error. It minimises the risk of contamination, all actions that could cause external contamination are avoided.	www.bemicon.com	Olivier RAIMOND Enrico BASTIANELLI	olivier.raimond@stratex.be	Rue de la Hurtrie 36 7600 PERUWELZ	069-771625		0496/261080
2  BIOLOG EUROPE (LOGISTICS IN WALLONIA)	BioLog Europe is a non-profit governmental agency whose mission is to help develop the life science industry in Belgium by offering free assistance to international companies that may be willing to expand/relocate into Europe , by integrating them into our vast network of diverse associates (healthcare industrials, public organizations, R&D centers, logistic service providers, financial institutions...).	www.logisticsinwallonia.be www.biologieurope.com	Nicolas COGNEAU	business@biologieurope.com	Liège Airport - Building 52 4460 GRACE-HOLLOGNE	04-2255060		0472/390646
3  DELPHI GENETICS SA	Delphi Genetics develops products and technologies for genetic engineering and for protein expression in bacteria by using its unique expertise in the field of plasmid stabilisation systems. The StabyExpress technology allows producing proteins and pDNA without the use of antibiotics, it enables to implement a completely "antibiotic-free" production platform thus complying with the latest FDA/USDA and EMA recommendations.	www.delphigenetics.com	Guy HELIN	ghehin@delphigenetics.com	Rue Antoine de St Exupery 5 6041 GOSSELIES	071-251000	071-376057	
4  EUROGENTEC SA	Eurogentec Biologics offers GMP contract manufacturing of proteins, plasmids, bacterial vaccines and conjugates for Phase I, II and III clinical trials and commercial supply. It is a full service CMO, offering you turnkey solutions including USP, DSP, QC development, process characterisation, process validation, GMP cell banking, GMP drug substance and drug product manufacturing, ICH stability studies and QP release .	www.eurogentec.com	Jean Michel SCHAUS	biologics@eurogentec.com	Rue du Bois Saint-Jean 5 4102 OUGREE	04-3727400	04-3727500	0473/866680
5  IDDI SA	IDDI, International Drug Development Institute, is a niche service provider in phase I-IV clinical trials since 1991. IDDI is a leading expert in biostatistical services and provides: -protocol design, centralized randomization and treatment allocation, data management, biostatistical analysis, clinical study reporting, statistical qualification of biomarkers, validation of gene signatures and protein expression data analyses.	www.iddi.com	Catherine INDEKEU	catherine.indekeu@iddi.com	Avenue Provinciale 30 1340 OTTIGNIES-LLN	010-614444	010-618888	0475/512931
6  QUALITY ASSISTANCE SA	Quality Assistance is a leading European Contract Research Organisation (CRO) assisting the (bio)pharmaceutical industries with the development and optimisation of their products , in compliance with the highest quality standards required by the EMA, the FDA and the PMDA. Main activity: Characterisation; Development and validation of (bio)analytical methods; Stability studies (250m³ of climatic chambers); Batch testing (including EU importation & release); Bioanalysis (PK/TK & Immunogenicity); Cleaning and process validation.	www.quality-assistance.com	Axelle VANDERBEQUE	axelle.vanderbeque@quality-assistance.be	Technoparc de Thudinie 2 6536 DONSTIENNES	071-534781	071-534216	0472/923279
7  SPI SCRL	SPI is the economic development agency of Liège-Belgium. It offers foreign companies bespoke support services for a soft landing in the north of the EU. Take advantage of our favourable business and research climate to start up your business or initiate partnerships. GIGA Entreprises Espace 1 offers facilities (labs and office space) with a highly visible campus address next to the university hospital. Our tenants enjoy ample opportunity for collaboration and networking with the university, research centers and companies.	www.spi.be	Laurence SLANGEN	laurence.slangen@spi.be	Rue du Vertbois 11 4000 LIEGE	04-2301111	04-2301120	0497/462585
8  TARGETOME SA	TARGETOME is a biopharmaceutical company developing targeted therapies against cancer , focusing on therapies with unmet medical needs , such as pancreatic cancer, or liver metastases , as well as to offer services built around its proprietary proteomics biomarker discovery platform. TARGETOME's discovery platform is tuned to isolate accessible cell surface proteins, a subset of potential markers particularly suitable for in-vivo diagnostic and targeted therapies.	www.liegebiomed.com/en/services/actors/targetome	Benjamin DAMIEN	benjamin.damien@targetome.be	Avenue Pré Aily 4 4031 LIEGE	04-3498540		0475/429313
9  UNIVERSITY OF LIÈGE	Life Sciences research at the University of Liège is organized in Research Centres. The main ones are focusing on: - Genomics and Genoproteomics (GIGA) , an innovative structure gathering an academic research centre, close clinical cooperation, technology platform facilities, renting space for both biotech start-ups and growing companies, and a biotech training centre) - Medical Imaging (Cyclotron Research Centre) - Protein Engineering (Centre for Protein Engineering) - Drug Research (CIRM). The University of Liège is actively collaborating with industries through research projects (FP7 health, eurostars,...), gives support to the licensing of technologies and facilitates the set-up of spin-off companies.	www.interface.ulg.ac.be	Annick HOUBRECHTS	a.houbrechts@ulg.ac.be	LIEGE Science Park, av.
