

Job opening: Project Management

Nanoligent is a biotech company, spin-off of the Universitat Autònoma de Barcelona (UAB) and Institut de Recerca de l'Hospital de la Santa Creu i Sant Pau. We are dedicated to drug design and development of targeted-therapeutic biologics. (www.nanoligent.com)

We are looking for:

A Project Manager to oversee the preclinical and clinical development activities, reporting to CEO.

Tasks

- Management of the scientific project execution, implying:
 - Work plan design, selection of suppliers and execution.
 - Data analysis, interpretation and discussion with CEO and scientific team.
 - Exquisite data reporting and follow-up of milestones.
 - Control of Work plan and Budget.
- Active participation in the preparation of applications for non-dilutive funding (grants).
- Support in patent applications or scientific publications
- Active data presentation to scientific boards/CEO.
- Full responsibility on managing external providers (from project definition, budget, and final execution)
- Communication and execution of duties with regulatory authorities

Requirements:

- PhD degree in Health Sciences
- Demonstrable experience in management of drug development projects in the biotech or pharma industry.
- Previous experience in managing external CROs (national and international)
- Excellent interpersonal, organizational, and team-working skills.
- Initiative, pro-activeness, results-oriented and analytical skills.
- Problem-solving mindset and used to performing in deadline driven environment.
- Fluent in Spanish and English.

We offer:

- Full-time position in a fast-growing biotech start-up.
- Salary package commensurate with the qualifications and experience of the candidate.
- Both working from home and on-site in the Barcelona area.
- Starting date: as soon as possible

To apply to this position please send your CV and a cover letter (including the contact details of two referees) to mcano@nanoligent.com before 22nd March 2024.
