

Biologist/Research Associate
Gain Therapeutics, Parc Científic de Barcelona
www.gaintherapeutics.com

Description

We are looking for an experienced, enthusiastic, and committed biologist to join the Biology Team at Gain Therapeutics. This position requires a self-motivated and productive scientist who enjoys collaborating with colleagues to conduct research and contribute to the development of treatments for diseases with high unmet medical needs.

Main Tasks and Responsibilities

- Run, develop, and troubleshoot assays to screen and characterize small-molecule modulators using a variety of techniques, including biochemical and biophysical assays.
- Communicate progress and results in project meetings.
- Compound management.
- Contribute to laboratory maintenance as part of the team.

Essential Requirements

- Bachelor's Degree in a Life Sciences discipline with a minimum of 3 years post degree experience in an industry/academic lab setting.
- Experience using software systems to process and analyze assay data (e.g. Excel, GraphPad Prism).
- Skills in cellular biology, as well as biochemical and biophysical techniques.
- Strong organizational skills with excellent attention to detail. High flexibility. Can cope with change.
- Responds well to scientific challenge and applies significant rigor to their own work.
- Fluent in English.

We offer:

- Full time contract.
- Salary will be commensurate with academic level and experience.
- Stimulating, interdisciplinary research and high-quality scientific environment.
- Measures to reconcile work and family life.
- Eligible for Employee Referral Bonus.

How To Apply

Interested applicants should send their CV and the contact of two referees to:
