

JOB OFFER

Biotech Research Assistant Position available at Succipro SL

Selective process is called to fill 1 RESEARCH ASSISTANT and research support position in SUCCIPRO (www.succipro.com), a small, dynamic and innovative spin-off company born from DIAMET research team (www.diamet.org), which belongs to INSTITUT D'INVESTIGACIÓ SANITÀRIA PERE VIRGILI (IISPV; www.iispv.cat)

A full-time position is being called to work in Tarragona area.

The company is seeking a highly motivated and adaptable senior Lab Technician to join our multidisciplinary team. As a key member of our laboratory, the candidate will play a crucial role in supporting our ongoing research projects and contributing to the overall success of our company.

Job Responsibilities:

1. Perform a variety of laboratory experiments and procedures under the guidance of senior researchers.
2. Assist in the execution of experiments across different disciplines, including molecular biology, cell culture, biochemistry and in vivo studies
3. Collaborate with cross-functional teams to support research initiatives and projects.
4. Take lab manager responsibilities (laboratory organization, order processing, reagent preparation, etc.)
5. Independently carry out animal experimentation and daily care of animals (rodents): colony maintenance, administration of drugs through different administration routes, sacrifice and handling of biopsies...
6. Management and coordination functions of the group's animal experimentation
7. Contribute to the development and optimization of laboratory protocols and procedures.
8. Adhere to safety protocols and maintain a clean and organized laboratory environment.
9. Handling purchasing orders

Qualifications:

1. Laboratory technician or Bachelor's degree in a relevant scientific field (e.g., Biology, Biochemistry, Molecular Biology, or related discipline).

- 2.
3. Certificate of Research Personnel User of Experimental Animals

Other considerations:

1. Hands-on experience in a laboratory setting, preferably within a biotech or life sciences company.
2. Strong understanding of molecular biology techniques, cell culture, and basic biochemistry.
3. Excellent organizational and communication skills with the ability to work effectively in a team-oriented, multidisciplinary environment.
4. Adaptability and willingness to learn new techniques and methodologies.
5. Ability to troubleshoot experimental issues and work collaboratively to find solutions.
6. Attention to detail and a commitment to maintaining high-quality laboratory practices.
7. Adaptability and availability to work occasionally on weekends
8. A personal vehicle is highly recommended, as our animal facilities are located in Reus and need reliable access

We offer a dynamic and collaborative work environment and opportunities for professional development in a flexible environment. If you are passionate about contributing to groundbreaking research in a multidisciplinary biotech setting, we encourage you to apply.

To apply, please submit your resume, a cover letter outlining your relevant experience, and contact information for two professional references to recruitment@succipro.com.

SUCCIPRO is an equal opportunity employer and encourages candidates from all backgrounds to apply.
